

Index of key terms

*Fall 2024**Kennesaw State University*

This document (hopefully) includes all the key terms defined this semester, with the number of the lecture where it is defined. You should be able to either skim through the lecture to see the term in bold, or to search for the term in the PDF file if you have it open on your computer.

For some key terms, other lecture numbers are included in parentheses: this indicates other lectures where the term comes up.
